

Genetic Health &
Research Centre

PLAN YOUR CAREER IN GENETICS THE RIGHT WAY.

Cytogenetics
Workshop

Institute of Medical Genetics,
Nashik

www.geneticsindia.com

ABOUT THE WORKSHOP

In this five-day workshop, participants will be taught the theoretical and practical aspects of laboratory procedures routinely used in medical genetics. In addition, participants will avail hands-on training in the following:

- Blood culture
- Sample harvesting
- Slide preparation
- Microscopy
- Chromosomal analysis (normal and abnormal study samples)
- Clinical correlation

TESTIMONIALS

"I got to learn a lot in this 5-day workshop and thoroughly enjoyed it. Thank you for such a well-organized and informative workshop. I would rate it 5/5"

- Dr Sayali Khonde

"I would rate the workshop 4.5/5. Would like to be associated with Genetic Health & Research Centre for future activities and also would like to participate in any future events"

- Dr Kajal Mohite.

ENROLLING

A photograph of laboratory glassware, including a large Erlenmeyer flask, a smaller flask, and a beaker, all containing blue liquid. A microscope is visible in the background, also with a blue tint.

Eligibility:

Graduates and Post-graduates in any of the following relevant fields may apply for the workshop:

- Medicine
- Human Genetics, Biotechnology, Biochemistry, or related core and hybrid biology degree programs
- Human Physiology, Human Anatomy
- Microbiology, Pathology, Molecular Biology, Embryology

HOW TO APPLY?

1

Fill in the application form on the URL
<https://geneticsindia.com/courses/cytogenetics-workshop/>

2

Applicants will receive a notification via email and phone once their application is processed. This is done within 5 days from the date of filling the form.

3

Applicants will have to pay a one-time course fee of **Rs 28,000/-** within 3 days of the notification of application acceptance.

ABOUT INSTITUTE OF MEDICAL GENETICS

Institute of Medical Genetics, a venture of Genetic health and Research Centre (GHRC), Nashik, is a genetics education organization committed to empowering and enabling medical and non-medical biology professionals in the field of medical genetics. We offer training programs, certificate courses, and workshops in areas of genetic counseling, medical genetics, laboratory genetics, reproductive genetics, and bioinformatics.

Dr. Dnyandeo Chopade

MBBS, MS,
PGC (Reproductive and child health,
PhD (Medical Genetics)

Sandesh Chopade

B.Tech (Bioengineering),
MSc (Genetics of Human Diseases)
